

Serious medical conditions can go undetected for years without noticeable symptoms. The earlier a problem is detected, the easier and more likely it is to be treatable. DirectLabs® is the leader in direct access laboratory testing and provides access to major clinical labs nationwide. Confidential results are available online in as little as 24 hours for most tests.

Scheduling Process

First time customers will create a "MyDLS" account. Customers will be able to access this account with their username and password at any time to view test orders, sign HIPAA release forms, print requisitions, and view or print results, all online, securely and confidentially.

- 1. Order your tests** online at and click on the "Order Test" tab and walk through the prompts, or call and give the code when placing your order over the phone.
- 2. Print your documents** within 24 hours. A requisition will be generated and uploaded to the customer's account during normal business hours. An email will be sent notifying the customer to log in to their account and print their requisition.
- 3. Go to the Lab Location.** Using the "Lab Locator" option, find a patient service center location convenient to your home or work.*
- 4. Retrieve your results online.** Most results are received in 24-48 hours, and uploaded securely and confidentially to your account. If you would like your test results sent to your Healthcare Provider, you must log onto your account and complete the online HIPAA form.
