

Imaging Benefit

Members can save on imaging services such as MRIs, CT Scans, and X-Rays. A Service Representative will assist members in finding the lowest price on procedures at a participating network provider and confirm the member's out of pocket responsibility before scheduling an appointment. Our network providers can save members an average of 40% - 75% less than the usual costs for advanced radiology testing.

A Service Representative will work on the member's behalf to:

- *Locate a provider in the member's requested area*
- *Confirm pricing to member*
- *Collect payment from member*
- *Provide financing options, if applicable*
- *Assist with appointment scheduling*
- *Answer questions regarding tests, what to expect at your appointment, directions to the facility, etc.*

How the Program Works

1. To schedule an imaging procedure, call and reference the promo code. Customer service hours are Monday - Friday between the hours of 7am - 7pm CST.
2. To begin the scheduling process provide the Service Representative your first and last name, date of birth, call back number, zip code, and an email address.
3. A copy of the referring physician's signed order is required and can be faxed or sent via secure email.
