A Navigation Platform Focused on Providing Users with Real Time Results

- Turn-by-turn voice and visual directions will guide you to any stops you select, while incorporating up-to-date traffic info so you can take the fastest way.
- While other apps search by proximity alone, My Association Travel App searches and shows you places along your route, so you're never doubling back or driving too far off the highway.
- My Association Travel App lets you search your route by time or distance from where you started or where you're going, so you can see what exits have to offer and plan accordingly.
- An intuitive road-trip app that predicts where you're going and shows you what's at each exit.
- Browse exits to see what's coming up, or search using multiple parameters and specific search criteria.
- City Mode feature helps you navigate your local errands with ease! Need a grocery store, a pharmacy, and dry cleaner near you but short on time? My Association Travel App will find the closest exit that has all three to maximize your time and keep you on schedule!
