Here at SnoopDrive, we know cars — and we know you can't afford to be without one.

SnoopDrive's team of auto industry professionals is passionate about a problem all car owners share — protecting against unexpected repair costs while keeping stress and expenses in check.

Until now, buying a vehicle service contract — aka extended warranty — has been a high-pressure process marked by zero trust and sky-high prices. The experience was clearly broken. Yet despite all those problems, about 50% of new and used car buyers still opt for a service contract at the time of their purchase. Clearly, this is something people want and need — no matter how painful it is for them to get.

We knew there had to be a better way.

We work hard to bring you a clear, simple way to protect your car, your pocketbook, and your peace of mind — offering the best products at a compelling price. We'll work just as hard to earn and keep your trust.

That's a promise.

When your car breaks down

We'll take care of the costs to get it fixed and back on the road.
